

**What is Claimed is:**

1. A method of laminating a photoresist sheet to a substrate, the method comprising:
  - a) providing a photoresist sheet;
  - b) providing an adhesive sheet;
  - c) providing a substrate;
  - d) applying the adhesive sheet to the substrate;
  - e) applying the photoresist sheet to the substrate to form a composite structure containing the photoresist sheet, adhesive sheet, and substrate.
2. The method according to claim 1, wherein the adhesive is pressure sensitive.
3. The method according to claim 1, wherein the adhesive is water soluble.
4. The method according to claim 1, wherein the adhesive is selected from the group consisting of adhesives containing poly (2-ethylhexyl acrylate); poly (n-butyl acrylate); poly (ethyl acrylate); poly (methyl acrylate), and combinations thereof.
5. The method according to claim 1, wherein the adhesive sheet comprises a carrier backing and an adhesive material
6. The method according to claim 5, wherein the carrier backing can be peeled from the adhesive.
7. A method of laminating a photoresist sheet to a substrate, the method comprising:

- a) providing a photoresist sheet;
- b) providing an adhesive sheet;
- c) providing a substrate;
- d) applying the adhesive sheet to the photoresist sheet;
- e) applying the photoresist sheet and the adhesive sheet to the substrate to form a composite structure containing the photoresist sheet, adhesive sheet, and substrate.

8. The method according to claim 7, wherein the adhesive is pressure sensitive.
9. The method according to claim 7, wherein the adhesive is water soluble.
10. The method according to claim 7, wherein the adhesive is selected from the group consisting of adhesives containing poly (2-ethylhexyl acrylate); poly (n-butyl acrylate); poly (ethyl acrylate); poly (methyl acrylate), and combinations thereof.
11. The method according to claim 7, wherein the adhesive sheet comprises a carrier backing and an adhesive material
12. The method according to claim 11, wherein the carrier backing can be peeled from the adhesive.
